

CASE STUDY: Ann Arbor Public Schools

Tests Flex Rooms for Collaborative Learning

Charged with creating spaces that support 21st-century learning needs, AAPS tested a “Flex Room” between two elementary classrooms to design a collaborative, student-first environment. To read more about collaborative learning, please [follow this link](#).

AAPS Capital Program’s objective is to transform the student learning experience with the goal of providing for the health, safety, and well-being of all students in high-quality, equitable, and environmentally sustainable schools.
