

The Earth Battery: AAPS' New Sustainable Geothermal Heating and Cooling Systems

Ann Arbor Public Schools is installing geothermal heating and cooling systems in schools as an environmentally friendly and cost-effective alternative to traditional HVAC systems. To read more, please [follow this link](#).

AAPS Capital Program's objective is to transform the student learning experience with the goal of providing for the health, safety, and well-being of all students in high-quality, equitable, and environmentally sustainable schools.
