## **Slauson Middle School Renovation Update January 2026**

Slauson Middle School renovations are currently being revised to exclude a geothermal installation, as it is no longer feasible at this school site. This revision will reduce the risks associated with drilling near the expanding Gelman Plume. As a part of our planned assessment of projects, the team also identified changes that could lessen the scheduled construction impact on the School Community.

Changes to the project include:

- Redesigned mechanical (HVAC) System
- Redesigned electrical system
- Simplified core design to a skylight opening & floor opening at the third floor
- Loading dock revisions
- Room reconfigurations

Please note: the new gymnasium work will continue as scheduled.

To see all of the information related to this project in one place, please visit the AAPS Capital Program website at [www.a2schoolsbond.org](http://www.a2schoolsbond.org) or click **[here to go directly to the Slauson Major Renovation page.](#)**

AAPS Capital Program's objective is to transform the student learning experience with the goal of providing for the health, safety, and well-being of all students in high-quality, equitable, and environmentally sustainable schools.

This middle school renovation is made possible by Bond and Sinking Funds. Ann Arbor Public Schools wishes to thank the Community for the continued support of the Capital Program Bond and Sinking Funds.
