## **New Logan ES @ Clague News - March 2026**

To support construction of the new Logan Elementary, the following activities will take place on the Clague Middle School campus, and are referenced on the site plan below. To see all of the information related to this project in one place, please [click here visit to the New Logan Elementary page](#) and feel free to bookmark the page to revisit, as content will continue to be posted.

### **IMPORTANT: Clague Middle School vehicle traffic patterns are identified below:**

- Currently, two-way traffic is accessible from Nixon Road.
- **Starting March 30th**, the City of Ann Arbor will close Nixon Road between Bluett Drive and Traver Blvd.
- **Beginning April 6**, Clague traffic flow will be **one-way only for Families and Staff**, entering school grounds from Bluett Road and exiting onto Nixon Road, as shown by the blue arrows in the site graphic below.
  - Entry will no longer be available from Nixon Road due to City of Ann Arbor construction.
  - Exiting the Clague driveway onto Nixon Road will be right turn only.
- These conditions are anticipated to be in effect throughout the remainder of the school year.

### Upcoming City of Ann Arbor Work:

- The Nixon Corridor Improvement Project is scheduled to begin March 30, 2026 and will close Nixon Road between Bluett Drive and Traver Blvd. Please visit the City's [project page to sign up for City updates](#).

### IMPORTANT - Logan Elementary School vehicle traffic pattern changes:

- **Beginning April 6**, the recommended detours include Plymouth Rd. to Huron Parkway to Traver Blvd. or from the north via Barton Dr. to Traver Blvd.
- The closure at Nixon Rd. and Traver Blvd. will change the usual traffic patterns for morning drop-off and afternoon pick-up. Families should plan for additional travel time and follow posted detour signs. Bus routes will also be impacted.
- Cars and buses will be entering Logan via a left turn into the driveway. During dismissal, some cars can use the u-turn at the end of Traver and continue to line up along Traver. Once those spaces are taken, families will need to park and walk to the school. Please do not block driveways or use Meade Ct. as a drop-off and pick-up location as this is a private drive.
- Families picking up are strongly encouraged to park in the neighborhood on city streets and walk to Logan to get your student. Please also consider carpooling or walking when possible to minimize the number of cars at Logan.
- Sidewalk access will be maintained but students will not be able to cross at Nixon Rd.

**Current Work, Weather Permitting:**

- Utility work continues, including water main work, which is nearing completion.
- Structural steel installation is complete.
- Masonry of the gymnasium shell is complete.
- Cross Laminate Timber (CLT) installation is ongoing.
- Work on the Geothermal Heating, Cooling & Ventilation system continues and is expected to take about 1-2 more months.

**The Christman Company reached the Topping Out milestone at new Logan Elementary, when the final and highest beam was raised into place. To watch the video, please [click here](#).**

**Please note:**

- Construction parking and construction access drives are for construction personnel only and to ensure safety, staff and parents should refrain from using construction parking and/or drives.
- Emails will continue to be sent, to provide updates on campus activities.

This new elementary school is made possible by Bond and Sinking Funds. Ann Arbor Public Schools wishes to thank the Community for the continued support of the Capital Program Bond and Sinking Funds.

AAPS Capital Program's objective is to transform the student learning experience with the goal of providing for the health, safety, and well-being of all students in high-quality, equitable, and environmentally sustainable schools.
